

# Student Handbook

## Academic Regulations, Conduct, Calendar, Fees and Services

Eurisko University, Beirut, Lebanon  
Faculty of Engineering - Undergraduate Programmes  
Academic year 2026-2027  
Document reference: EU-FOE-SH-2026.1

## 1. Grading and Academic Standing

### 1.1 Grading scale

| Grade | Points | Grade | Points | Notation | Meaning                                  |
|-------|--------|-------|--------|----------|------------------------------------------|
| A     | 4.0    | C+    | 2.3    | W        | Withdrawn - no credit, excluded from GPA |
| A-    | 3.7    | C     | 2.0    | P        | Pass - credit earned, excluded from GPA  |
| B+    | 3.3    | C-    | 1.7    |          |                                          |
| B     | 3.0    | D+    | 1.3    |          |                                          |
| B-    | 2.7    | D     | 1.0    |          |                                          |
|       |        | F     | 0.0    |          |                                          |

### 1.2 Grade point average

The grade point average is the sum, across all graded courses, of the grade points earned in each course multiplied by that course's credit value, divided by the total credits attempted in graded courses. Courses carrying W or P are excluded from both parts of that calculation. Averages are reported to two decimal places and are not rounded upward.

### 1.3 Passing grades

A grade of D (1.0) or above earns credit for a course. A grade of C- (1.7) or above is required in any course used as a prerequisite for another, and in every course counted toward the Major Core category. A student earning below C- in such a course keeps the credit but must repeat the course before progressing.

### 1.4 Academic standing

Standing is reviewed at the end of every Fall and Spring term. Summer terms are not review points.

| Standing           | Condition                                                  | Consequence                                                                                                                                                                                         |
|--------------------|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Good standing      | Cumulative GPA of 2.00 or above                            | No restriction.                                                                                                                                                                                     |
| Academic probation | Cumulative GPA below 2.00                                  | Registration capped at 9 credits in the following term. A study plan must be agreed with the academic advisor before registration is approved. Ineligible to hold a scholarship while on probation. |
| Academic dismissal | Cumulative GPA below 2.00 for two consecutive review terms | Enrolment is terminated. Readmission may be sought after two terms have elapsed.                                                                                                                    |

## 1.5 Repeating a course

- A course failed with a grade of F must be repeated if it is required for the programme.
- A course passed may be repeated once to improve the grade.
- Both attempts stay on the transcript, but only the higher grade counts toward the GPA.
- Credit for a course is earned once only, however many times it is taken.
- No course may be attempted more than three times.
- A course repeat surcharge applies to each repeated course.

## 2. Registration

### 2.1 Course load

A full-time load is not fewer than 9 credits in a Fall or Spring term, and the normal maximum is 15. A load above 15 credits requires the written approval of the academic advisor and a cumulative GPA of 3.00 or above. A student on academic probation may not register for more than 9 credits.

### 2.2 Prerequisites

A student may not register for a course without having completed every prerequisite listed for it in the Course Catalogue, at a grade of C- or above. Where more than one prerequisite is listed, all are required. Prerequisites are enforced at registration. A waiver may be granted only in writing, by the department offering the course.

### 2.3 Adding, dropping and withdrawing

| Action                 | Deadline                          | Effect on the record                                                                                                                                                           |
|------------------------|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Add a course           | End of the second week of classes | None.                                                                                                                                                                          |
| Drop a course          | End of the third week of classes  | The course is removed entirely and does not appear on the transcript.                                                                                                          |
| Withdraw from a course | End of the tenth week of classes  | The notation W appears on the transcript. No credit, no effect on the GPA, but the course counts as attempted. No more than four W notations may be accumulated over a degree. |

*Exact dates for each term appear in section 5.*

## 3. Graduation

The Bachelor of Engineering is conferred on a student who has satisfied all of the following.

- 72 credits, with every requirement category individually satisfied. Surplus credits in one category do not offset a shortfall in another.
- A cumulative GPA of 2.00 or above.
- A grade of C- or above in every Major Core course.
- Completion of the industrial placement and the senior design project.
- Settlement of all financial obligations to the University.

A student must submit an application to graduate to the Office of the Registrar by the published deadline in the term before the intended term of graduation. Submitting the application triggers a formal degree audit. A student who does not apply by the deadline will not be considered for that graduation cycle, however complete the academic record may be.

## 4. Academic Integrity and Conduct

The following are academic offences.

- **Plagiarism.** Presenting the words, ideas, data, code or designs of another as one's own, including through failure to acknowledge a source.
- **Cheating.** Using unauthorised materials, devices or assistance in an assessment.
- **Fabrication.** Inventing or falsifying data, results, citations or laboratory records.
- **Unauthorised collaboration.** Working with others on work designated as individual.
- **Unauthorised use of generative AI.** Submitting text, code or analysis produced by an automated system as one's own, other than as expressly permitted in writing by the instructor. Where use is permitted it must be disclosed. Silence in a syllabus is not permission.

An allegation is reported to the Office of Student Conduct, which notifies the student in writing within five working days. The student may respond in writing within ten working days. A first offence where the student accepts responsibility may be resolved by the department head; otherwise a panel of three convenes a hearing at which the student may attend, be accompanied by one supporter, and present evidence. Sanctions range from a written reprimand, through a grade of zero on the assessment or a grade of F in the course, to suspension or expulsion. A decision may be appealed to the Dean within ten working days, on the grounds of procedural irregularity, new evidence, or a manifestly disproportionate sanction.

### 4.1 Student records and privacy

Student records are confidential. The University does not release information from a student record to any third party, including a parent, sponsor or employer, without the written consent of the student, except where disclosure is required by law or is necessary to protect the health or safety of any person. A student may not, under any circumstance, be given access to the record of another student.

## 5. Academic Calendar 2026-2027

### Fall 2026

| Date              | Event                                        |
|-------------------|----------------------------------------------|
| 13 July 2026      | Registration opens                           |
| 21 August 2026    | Tuition first instalment due                 |
| 07 September 2026 | Classes begin                                |
| 18 September 2026 | Last day to add a course                     |
| 25 September 2026 | Last day to drop a course without a W        |
| 16 October 2026   | Tuition second instalment due                |
| 13 November 2026  | Last day to withdraw from a course with a W  |
| 20 November 2026  | Last day to apply to graduate in Spring 2027 |
| 11 December 2026  | Classes end                                  |
| 14 December 2026  | Final examination period                     |
| 08 January 2027   | Final grades released                        |

### Spring 2027

| Date             | Event                                       |
|------------------|---------------------------------------------|
| 16 November 2026 | Registration opens                          |
| 25 January 2027  | Classes begin                               |
| 05 February 2027 | Last day to add a course                    |
| 12 February 2027 | Last day to drop a course without a W       |
| 02 April 2027    | Last day to withdraw from a course with a W |
| 07 May 2027      | Classes end                                 |
| 10 May 2027      | Final examination period                    |
| 05 June 2027     | Commencement ceremony                       |

## 6. Tuition and Fees

Tuition is charged per credit and billed each term on the basis of credits registered at the add deadline. Amounts are in United States dollars and apply for the 2026-2027 academic year.

| Item                                            | Amount             | Charged                          |
|-------------------------------------------------|--------------------|----------------------------------|
| Tuition                                         | USD 385 per credit | Each term, on registered credits |
| Registration and student services fee           | USD 240            | Each term                        |
| Technology and library fee                      | USD 130            | Each term                        |
| Health insurance (waivable with proof of cover) | USD 310            | Each academic year               |
| Late payment fee                                | USD 50             | Per missed instalment            |
| Course repeat surcharge                         | USD 100            | Per repeated course              |

| Item                       | Amount  | Charged                 |
|----------------------------|---------|-------------------------|
| Official transcript        | USD 15  | Per copy                |
| Graduation and diploma fee | USD 175 | Once, in the final term |

### 6.1 Illustrative term cost

A student registered for 12 credits, not in residence, would be billed as follows.

| Item                                  | Calculation           | Amount           |
|---------------------------------------|-----------------------|------------------|
| Tuition                               | 12 credits at USD 385 | USD 4,620        |
| Registration and student services fee | Each term             | USD 240          |
| Technology and library fee            | Each term             | USD 130          |
| <b>Term total</b>                     |                       | <b>USD 4,990</b> |

### 6.2 Payment and refunds

Term charges are payable in two instalments, the first of sixty per cent before classes begin and the balance in the middle of the term. An outstanding balance blocks registration for the following term, the release of transcripts, and the conferral of the degree. Tuition is refunded in full up to the add deadline, at 75 per cent up to the drop deadline, at 50 per cent through the fifth week, and not at all after the seventh week. Compulsory fees are not refundable after the add deadline.

## 7. Financial Assistance

An application is required for every award; none is granted automatically. A student on academic probation is ineligible to hold or renew an award.

| Award                    | Value                                   | Eligibility                                                                                       |
|--------------------------|-----------------------------------------|---------------------------------------------------------------------------------------------------|
| Dean's Merit Scholarship | Up to 50% of tuition                    | Cumulative GPA of 3.50 or above and at least 12 credits in the preceding term. Reviewed annually. |
| Financial Need Grant     | Up to 40% of tuition                    | Requires a completed financial statement. Applications close 31 May for the following year.       |
| Work-Study Placement     | USD 8 per hour, up to 12 hours per week | Open to students in good standing who have completed at least 24 credits.                         |

## 8. Student Services

| Office                     | Contact               | Handles                                                                                                 |
|----------------------------|-----------------------|---------------------------------------------------------------------------------------------------------|
| Office of the Registrar    | registrar@eurisko.edu | Registration, add and drop, transcripts, enrolment letters, graduation applications.                    |
| Academic Advising Centre   | advising@eurisko.edu  | Study plans, degree progress, course sequencing, probation support, appointments with faculty advisors. |
| Student Financial Services | finance@eurisko.edu   | Tuition invoices, instalments, refunds, scholarships and work-study.                                    |
| Health and Wellness Centre | wellness@eurisko.edu  | Medical care, confidential counselling and insurance waivers.                                           |
| Career Services Office     | careers@eurisko.edu   | Internship placement for ENGR 480, CV and interview preparation, employer events.                       |

| Office                          | Contact                   | Handles                                                                       |
|---------------------------------|---------------------------|-------------------------------------------------------------------------------|
| Information Technology Services | itsupport@eurisko.edu     | Accounts and passwords, campus network, portal access, computer laboratories. |
| Accessibility Services          | accessibility@eurisko.edu | Documented accommodations, examination arrangements, assistive technology.    |
| Office of Student Conduct       | conduct@eurisko.edu       | Academic integrity cases, misconduct, disciplinary hearings and appeals.      |

## 9. Where to Take a Question

The table below indicates the office responsible for each common category of enquiry. It is the reference used by University staff and information services when directing a student who needs assistance beyond published information.

| Category of enquiry                                  | Responsible office                       | Contact                   |
|------------------------------------------------------|------------------------------------------|---------------------------|
| Registering for, adding or dropping a course         | Office of the Registrar                  | registrar@eurisko.edu     |
| Transcripts, enrolment letters, applying to graduate | Office of the Registrar                  | registrar@eurisko.edu     |
| Degree progress, study plans, course sequencing      | Academic Advising Centre                 | advising@eurisko.edu      |
| Academic probation and recovery planning             | Academic Advising Centre                 | advising@eurisko.edu      |
| Prerequisite waivers and course substitutions        | Academic Advising Centre                 | advising@eurisko.edu      |
| Disputing a grade                                    | The instructor, then the department head | advising@eurisko.edu      |
| Tuition, instalments, refunds, scholarships          | Student Financial Services               | finance@eurisko.edu       |
| Internship placement and careers                     | Career Services Office                   | careers@eurisko.edu       |
| Medical, counselling, insurance waiver               | Health and Wellness Centre               | wellness@eurisko.edu      |
| Exam accommodations and assistive technology         | Accessibility Services                   | accessibility@eurisko.edu |
| Academic integrity, misconduct, appeals              | Office of Student Conduct                | conduct@eurisko.edu       |
| Accounts, wifi, portal access                        | Information Technology Services          | itsupport@eurisko.edu     |

*A student unsure where an enquiry belongs should contact the Academic Advising Centre, which will route it. Anything involving an immediate risk to the safety of a person should go to Campus Security on +961 1 555 000, at any hour.*
